

Safe Cave Diving with Swiss Cave Diving

Training manual " Höhlentaucher 1 / Cavern Diver " **for courses**

With this manual, the authors, both Cave Diving Staff Instructors of SCD, resp. CMAS.CH and well known for their annual "Stages Spéléo Suisses" in France, present their decade-long experience in the cave diving area with over 500 certified students and over 10'000 accident-free training dives in very condensed form to the interested diving public. The manual focuses exclusively on the cave-diving entry level.

This book is the official training manual for Cave Diver I courses of **Swiss Cave Diving** in 9 countries.

The authors:

Fritz Schatzmann
